The Journey so far:

World Bazaar was started by Randip and Simran Dhingra in 2004 with their flagship store in Ghitorni, M.G. Road , New Delhi spread over 8500 square feet. Initially the company started to import Wicker furniture and artifacts from Indonesia and was a huge success from day 1. The company later evolved to further imports from across Asia from the Philippines, Burma, Sri Lanka, Thailand as well as Indonesia.

The first foray into outdoor furniture was in the year 2009 and the company has never looked back since. The branding has since than changed to World Bazaar (Luxury Outdoor) as by then we exited all indoor products. We currently import and represent only European brands on pan India basis since the past 8 years.

4Seasons Outdoor is our partner from the Netherlands which has a huge collection of furniture comprising of Wicker, Teak and Aluminum . Fermob is a historic company in metal furniture from France having a standard pallete of 23 colours across their entire range. Saveri is a German company making furniture from reinforced concrete . Maiori is also French company which has pioneered Solar powered lamps which supplements their extensive furniture collection. Fatboy from the Netherlands is available in 42 countries worldwide and comprises of fun collections ranging from bean bags to hammocks to rechargeable lamps.
Scolaro from Italy is our partner for the extensive Parasol range and Capi- Europe - Netherlands is the partner for the amazing collection of Planters. Latest addition has been the patio heaters falo & dolce vita from Italkero, Italy.

The range currently comprises of furniture, parasols, planters, carpets , lamps , patio heaters , pizza ovens and many more items making it the largest assortment available in India under one roof! The collection is constantly evolving and is the benchmark for the Indian market for all things Outdoor!

BISTRO

LÉGENDE DE LIMONADIER

THE LEGEND OF THE LEMONADE SELLER

Created in the late nineteenth century, folding furniture quickly became a great success with lemonade sellers: it was quick and easy to pack away, which meant that they could avoid paying the licence for a permanent terrace! Soon, this legendary chair could be found everywhere... in the bistros of Paris and in the open-air cafés along the Seine. Fermob developed its Bistro collection based on the original "Simplex" model detailed in the brand's own patent registered in 1889. The Bistro collection is now manufactured entirely in France. Bistro continues to delight customers today, with its 24 colours and a choice of 10 table formats, not to mention its lazing or high versions. Its typically French style has won over Times Square, Bryant Park... and even Louis Vuitton.

DESIGN Frédéric SOFIA

D'HIER ET D'AUJOURD'HUI

A TIMELESS CLASSIC

At Fermob's request, Frédéric Sofia has revisited this iconic item of furniture, which the company manufactured for the famous Jardin du Luxembourg. A new collection was born, with the same name and simple, generous lines as the original, offering all the durable and lightweight qualities of aluminium. From the low armchair (Solo or Duo) to the Kid chair, Luxembourg is a range that just won't stop growing! This means that the many, many people who have fallen for its distinctive design can find the articles that are just right for them.

ICÔNE ROMANTIQUE

ROMANTIC ICON

1900 is a collection full of history, with scrolls and rings that are still hand forged. It is inspired by outdoor furniture from a very French tradition of romantic gardens and bandstands, but with added convenience and comfort. The range has been re-designed by Robert Broyer to make it stacking and more ergonomic. A Belle Epoque style transformed with the bright, lively colours of the Fermob colour chart.

Saveri, founded in 2004 has a design philosophy to create authentic, simple and functional collections.

The Raw Materials

- ❖ *Portland Cement*
- ❖ *Clean, Sieved Sand 0.5-1mm*
- ❖ *Aggregates such as Granite and Stone 1-3mm*
- ❖ *Clean Water*
- ❖ *Ramie, a natural plant, used for reinforcement*

Hand mixed by each craftsman and applied with scoop and spatula to the formwork. Carefully compacted to ensure no air holes are left. For each item, the ramie fiber is designed in different mats. The secret detail for non- cracking and strong concrete furniture - truly hand crafted!

Polish: *First the surface is sanded, then the pigment is applied with hand pressure to close all the pores. This procedure is repeated several times to create the unique & shiny surface.*
Each craftsman leaves his fingerprint and insures not one piece is the same.
